EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Harry Shubin on March 1, 2004.

The application has been amended as follows: in claim 3, "L3 per 2" has been changed to –L3 and 2--. In claim 4, "per 30" has been changed to –and 30-.

The abstract has been replaced with the following abstract:

--The present invention relates to a coated metal surface comprising, successively: a layer (1) of epoxy primer placed next to the metal, a layer (2) of binder comprising 98 to 50 parts by weight of at least one fluoropolymer L3, and 2 to 50 parts, respectively, of at least one polymer chosen from acrylic polymers L1 and polymers L2 which are fluoropolymers chemically modified by a partial dehydrofluorination followed by an oxidation, and a layer (3) of fluoropolymer. According to a first variant, the coating does not comprise the layer (3). According to a second variant, the coating does not comprise the layer of primer (1), and the layer of binder necessarily contains the polymer L2. According to a third variant, the coating does not comprise the layer (2), and the layer (1) comprises a mixture of epoxy primer and polymer L2. --

Application/Control Number: 10/088,560

Art Unit: 1712

The following is an examiner's statement of reasons for allowance: a reasonable search of the prior art of record failed to reveal the instantly claimed limitations. Carson et al. disclose a layer of epoxy followed by a layer of fluoropolymer that can also contain other polymers. However, Carson et al. do not teach or disclose a mixture or blend of fluoropolymers, much less fluoropolymers chemically modified by a partial dehydrofluorination followed by an oxidation. Applicant submitted a proper IDS (January 15, 2004) that cited a French document corresponding to a copending, commonly assigned application (09/575368). This application discloses a method of improving adhesion of a fluoropolymer to a metal surface by a method as in the instant application. However, this application does not teach or disclose a blend of fluoropolymers and a primer layer, nor does it teach or disclose mixing an epoxy with the fluoropolymer. Therefore, as Carson et al. do not teach or disclose a modified fluoropolymer or a layer with a blend of fluoropolymers, and 09/575368 does not teach or disclose a blend of fluoropolymers or an epoxy with a fluoropolymer, it does not appear that there exists a case of primae facie obviousness concerning these documents.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher M. Keehan whose telephone number is (571) 272-1087. The examiner can normally be reached on Monday-Friday, from 6:30 to 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu S. Jagannathan can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
